EDUCATION

City University of New York, Lehman College

May 2028

Bachelor of Science in Computer Science

New York, NY

- **GPA:** 3.9
- **Relevant Coursework:** Web Development, Java Intro, Advanced Java, Kotlin & Python Intro
- **Awards & Honors:** MacKenzie Scott Prize for Professional Writing, Presidential Scholars, Dean's List
- **Affiliations:** ColorStack, SEO Career, Google Developer Group Bronx, NSBE

TECHNICAL SKILLS

Languages: Python, Java, Kotlin, SQL, JavaScript, HTML/CSS

Libraries/Frameworks: Pandas, Streamlit, Ktor, Pytest, JUnit, SQLite, Pygame, JavaFX

Developer Tools: MySQL, Git/GitHub, Emacs, VS Code, IntelliJ, SSH, Linux, Gradle, Claude, Copilot, Ollama

PROJECTS

Rate My Course | [GitHub](#) | Python, Streamlit, Pandas, SQLite

April 2026

- Collaborated on a course-rating web application featuring a **SQLite database** designed to store and manage student review data, providing **3x more insights** than course catalog descriptions
- Leveraged **Pandas** for **data manipulation** and **visualization** of student feedback within the **Streamlit** interface
- Earned honorable mentions at the **Code x Design Hackathon**, hosted by Lehman's **ColorStack** and **Girls Who Code** chapters

Student QR Generator | [GitHub](#) | Kotlin, Ktor, RESTful API, JavaScript, Gradle

April 2026

- Developed a backend service using **Kotlin** and **Ktor** with **RESTful API endpoints** for student data management and QR generation
- Built an interactive frontend using **JavaScript** and the **Fetch API** to asynchronously handle **binary image blob rendering** and user downloads
- Utilized **Gradle** for automated dependency management and build orchestration to ensure a consistent development workflow

PawPal+ | [GitHub](#) | Python, Streamlit, Ollama Mistral, Pandas, Pytest

March 2026 - April 2026

- Integrated **Ollama's Mistral AI model** to create an **agentic workflow** that generates personalized pet care schedules
- Established a robust testing suite using **Pytest**, achieving a **92% success rate** with **22 out of 24 passed test cases** to ensure reliable scheduling logic
- Implemented **6 validation checks** and human-in-the-loop approval requirements to maintain data quality and accuracy

Multi Platform Chat | [GitHub](#) | Java, TCP/IP Sockets, JavaFX

March 2026

- Engineered a multithreaded chat application in **Java** utilizing **TCP/IP Sockets** to handle **10+ simultaneous connections** without latency degradation
- Designed both a **CLI** and a **JavaFX GUI** for users to securely send and receive **serialized messages** through a central server

EXPERIENCE

Discovery Program

April 2026 - May 2026

Coding it Forward

Remote

- Selected from **over 6,500 applicants** for program focused on public interest technology and career exploration

Applied AI Engineering

Feb. 2026 - April 2026

CodePath

Remote

- Leveraged **GitHub Copilot** to **resolve 25+ logic vulnerabilities** within unfamiliar codebases and **engineer 3 end-to-end applications**
- Pair-programmed utilizing **AI tools (Claude Code, GitHub Copilot)** to evaluate and improve production-level code

Technical Interview Prep

Sept. 2025 - Nov. 2025

CodePath

Remote

- Outpaced standard 10-unit curriculum via **adaptive pacing**, solving **20+ additional LeetCode problems** focused on complex **data structures** and **algorithmic efficiency**

Tech Developer First-year Academy

Feb. 2025 - July 2025

Sponsors for Educational Opportunity

Remote

- Built and presented "Jump Cat" using **Python** and **Pygame**, implementing **collision detection**, **scoring**, and **progressive difficulty logic**
- Selected for a **competitive summer program** after successfully completing a **rigorous 8-week Python curriculum** in Spring
